### Celebrating Languages

We had a great day out on Leeds' Briggate on Saturday 24 September, to celebrate the 10<sup>th</sup> anniversary of the European Day of Languages. Thanks to everyone who participated in our quiz and everyone who let us record them speaking a language other than English.

We'll hopefully be able to upload our finished video to YouTube soon.

On <http://www.youtube.com/user/europedirectleeds> you can already listen to some foreign languages that we recorded at Kirkstall Festival in the summer.

## Light Night Leeds 2011

Another year of Light Night is over and we enjoyed it once more! A lot of hard work went into this year's event and the past few weeks seem to have just flown by!

You can download our trail through Holbeck at <http://bit.ly/eHHW6u>. On the same page you will be able to find the trail which we prepared for last year's Light Night, which guides you through Leeds city centre. Each walk should not take longer than 45 minutes on average.

## Congratulations! Cosalt Wind Energy wins European Award

Grimsby based Cosalt Plc has beaten off stiff competition to win a prestigious award at the European Commission's annual conference for the Enterprise Europe Network, which took place on Monday the 26<sup>th</sup> September 2011 in Warsaw, Poland.

The conference was also attended by Leeds based Targeting Innovation, a delivery agent of the Enterprise Europe Network, who also picked up an award for support provided to Cosalt's venture.

The award acknowledged Cosalt's joint venture, Cosalt Wind Energy, with Danish company Apro Wind. The venture between the two companies delivers operations and maintenance services to the UK offshore wind industry, providing complete service solutions.

On receiving the award Winston Phillips, Managing Director of Cosalt Wind Energy, commented: "We were delighted to have been presented with this award, acknowledging the joint venture and our achievements. The Enterprise Europe Network was instrumental in the facilitation of the initial introduction between our two organisations and has been a great support since."

Tim Barraclough of Targeting Innovation also commented: "Cosalt Wind Energy is a great success story for the Enterprise Europe Network. They have created over 30 local jobs and are extremely busy. The network is great resource for companies looking to do business in Europe and I'm happy to have been able to support Cosalt Wind Energy".
